

Dear Resident

Temporary closures on Manning Clark Crescent and Hamer Street in May are required for construction work as part of the extension of Manning Clark Crescent and The Valley Avenue.

Manning Clark Crescent

Manning Clark Crescent will be closed in both directions between Barbara Jefferis Street and Flemington Road on Saturday 7 May and Saturday 14 May 2016.

This closure will enable the construction of new water mains and utility services across Manning Clark Crescent.

Pedestrian access will remain open but people may be detoured via a temporary footpath.

Hamer Street

From 17 May 2016, Hamer Street will close for up to three days to traffic between Mary Gillespie Avenue and Flemington Road.

This closure will allow water main and electrical works to be undertaken as part of the extension of Manning Clark Crescent.

Access will remain open along Hamer Street between Anthony Rolfe Avenue and Mary Gillespie Avenue. Pedestrian access will remain open but, to maintain safety for pedestrians, people may be detoured via a temporary footpath. Residents will be informed of the closure dates through on-road signage and online information.

Upcoming Impacts

Other future impacts associated with this project include:

- Upgrading the intersection of Manning Clark Crescent and Flemington Road, which includes changes to kerbs, traffic islands, pavement areas and traffic signals. A future full closure of Manning Clark Crescent from mid June until September 2016 is being considered to allow more work to be undertaken. Residents will be informed through a letterbox drop, on-road signs and via the website when dates are confirmed.
- Installation of new stormwater, water supply mains and utility services at the Kate Grace Street intersection with The Valley Avenue. Timing of this work is yet to be confirmed. Residents will be informed through a letterbox drop, on-road signage and online information.

We thank residents and road users for their patience during this work.

Temporary Road Closures

Hamer Street and Manning Clark Crescent
