

## Anthony Rolfe Intersection Work

Dear resident

Work is progressing well on the Horse Park Drive upgrade. As part of the final stages of work at the Anthony Rolfe Avenue and Horse Park Drive intersection, an asphalt overlay will be placed.

This work will be undertaken on two consecutive nights, between Wednesday 11 and Thursday 19 May 2016 (exact dates are dependent on weather and scheduling). To reduce the impact on traffic the work will take place at night, from 7 pm to 6 am and will not occur over the weekend.

During the work, access in and out of Anthony Rolfe Avenue will not be available; however, vehicles will have full access in both directions on Horse Park Drive. Access via Horse Park Drive (in and out of the Gungahlin Town Centre) will be via Gundaroo Drive or Mapleton Avenue.

Soon after the work is completed, city-bound traffic is scheduled to switch onto the newly upgraded Horse Park Drive road surface. Works in the median of Horse Park Drive will then be completed, prior to this intersection becoming two lanes in each direction.

You may also have noticed that work on the duplication of Horse Park Drive from Anthony Rolfe Avenue to Well Station Drive has commenced.

Thank you for your patience during this construction work.
